ANATOMICAL DISSECTION AND GRAFTING PROCEDURES ON HUMAN SPECIMENS

Guided implant placement, live surgery procedures

VIENNA, AUSTRIA

March 3-5, 2011

June 16-18, 2011

November 10-12, 2011

COURSE DIRECTORS:

Prof. Dr. Dr. Rolf Ewers

Dr. Dr. Astrid Reichwein

Dr. Dr. Dr. Rudolf Seemann

(validated by the Österreichische
Zahnärztekammer ZFP-ÖZÄK)

In association with the University Hospital
for Cranio Maxillofacial and Oral Surgery,
the CMF Institute Vienna and the Anatomical
Institute of the Medical University of Vienna.

camlog

Ladies and Gentlemen,

This three-day course is designed for surgically active practitioners, who want to enhance their experience in GBR and grafting/bone harvesting techniques. Comprehensive information on the human cranial and oral anatomy will be given in a theoretical session.

Each participant will spend one day in the dissection laboratory where extensive hands-on exercises on human specimens will be performed. Nerve and artery preparation/dissection, graft harvesting procedures utilizing standard preparation techniques, sinus elevation and bone splitting procedures including implant placement will be exercised.

3D planning of complex cases and the prosthetic aspects of guided implant placement will be presented. A live surgery using the CAMLOG® Guide system will be performed in the CMF Institute/ CAMLOG Competence Center.

**THE LEVEL OF THIS COURSE
IS ADVANCED TO COMPLEX.**

On the first evening, we are going to have dinner together in a "Heuriger", an exceptional type of restaurant only to be found in Austria in general and in Vienna, in particular. The word "Heuriger" is so specifically Austrian that no English term exists for it. It is the name given to a wine tavern and restaurant, where patrons can experience a traditional and cozy atmosphere ("Gemütlichkeit") and where originally only the most recent year's wine was served. There is also a specific kind of music and special food typical for a "Heuriger".

PROGRAM

Day 1 – CMF Institute

9am - 6pm

Theory

- Anatomical considerations in conjunction with GBR and dental implant procedures
- Critical issues: nerve structures, blood vessels, sinus, nasal and oral cavities
- Changes of Paradigm in Implantology
- Introduction of the Anatomical Institute and dissection room
- Approaches step by step **MANDIBLE:**
 - Mental Region
 - Posterior Mandible
 - Transmucosal or epiperiosteal preparation of Implant insertion
- Approaches step by step **MAXILLA:**
 - Anterior Region
 - Lateral Region
 - Transmucosal or epiperiosteal preparation and Implant insertion

Evening event

- Dinner at "Heuriger"

Day 2 – Anatomical Institute

9am - 5pm

step by step, MANDIBLE:

Mental Region:

- Marginal incision
- Pichler Plasty
- Harvesting of the mental bone
- Dissection of the mental nerve
- Lateralisation of the mental nerve

Posterior Mandible:

- Third molar surgery
- Dissection of the lingual nerve
- Bone harvesting of the mandibular angle
- Exposure of the mandibular canal
- Bone splitting and PSP techniques
- Onlay plasty
- Dissection of the envelope periosteal flap

Transmucosal or epiperiosteal preparation and Implant insertion

step by step, MAXILLA:

Anterior Region:

- Marginal incision
- Demonstration of the infraorbital nerve
- Bone splitting and distraction techniques
- Onlay plasty

Lateral Region:

- Demonstration of the palatine artery
- Sinus lift and graft
- Fat pad

Transmucosal or epiperiosteal preparation and implant insertion CAMLOG® Instrument presentation

Day 3 – CMF Institute

9am - 2pm

- CAMLOG® Guide Workflow and hardware
- 3D planning step by step
- 3D Planning of complex implant cases
- Prosthetic aspects of guided implant placement
- Live surgery CAMLOG® Guide System
- Closing statements and certification ceremony

INFORMATION

Course Venues:

Day 1 + Day 3
CMF Institute Vienna
CAMLOG Competence Center
Schumannngasse 15, A-1180 Wien

Day 2
Anatomical Institute
of the Medical University of Vienna
Währingerstrasse 13, A-1090 Wien

Language: English

Course Fee:

€ 1'900.– including course materials,
coffee breaks, lunches and evening event
on first evening

Number of Participants:

max. 24

CE Credit:

23 points, validated by Österreichische
Zahnärztekammer ZFP-ÖZÄK
(Austrian Chamber for dentists)

Accommodation:

Hotel Regina****
Rooseveltplatz 15, A-1090 Vienna
Phone: +43 1 404 460
Fax: +43 1 408 83 92
e-mail: regina@kremsehnerhotels.at
www.kremsehnerhotels.at
Rates: € 153 single room, € 170 double room.
The rates are per room/night incl. breakfast.

Hotel de France

**Only available from 16-18 June 2011 and
10-12 November 2011**

Schottenring 3, A-1010 Wien
Phone: +43 1 313 68-3361
Fax: +43 1 319 59 69
e-mail: office@austria-hotels.at
www: www.austria-hotels.at
Rates: € 132 single room, € 158 double room.
The rates are per room/night incl. breakfast

Booking code for both hotels: "CAMLOG"
For reservation, please, contact the hotel
directly.

Registration:

CAMLOG Biotechnologies AG
Margarethenstrasse 38, CH-4053 Basel
Contact: Mrs. Carola Mithoefer
e-mail: carola.mithoefer@camlog.com
Phone: +41 61 565 41 73
Fax: +41 61 565 41 01

Online download of registration form:
www.camlog.com

After registration, you will receive a detailed list
of all surgical instruments you should take with
you to the course. Consumable materials (gown,
head protection, mouth protection, gloves etc.)
will be provided by the course organization.

COURSE DIRECTORS:

Prof. Dr. Dr. Rolf Ewers, M.D., D.M.D., Ph.D.

Chairman of the University Hospital for Cranio Maxillofacial and Oral Surgery, Medical University of Vienna and CMF Institute Vienna

Dr. Dr. Astrid Reichwein, M.D., D.M.D.

University Hospital for Cranio Maxillofacial and Oral Surgery, Medical University of Vienna
Member of the Navigation Surgery Team

Dr. Dr. Dr. Rudolf Seemann, M.D., D.M.D., MSc, MBA

University Hospital for Cranio Maxillofacial and Oral Surgery, Medical University of Vienna
