THE ART OF **SOFT TISSUE MANAGEMENT** ON HUMAN SPECIMENS

Practical Dissection Course with Experts

VIENNA, AUSTRIA
October 7-8, 2011

COURSE DIRECTORS:

Dr. Axel Kirsch

Prof. Dr. Dr. Rolf Ewers

(validated by the Österreichische
Zahnärztekammer ZFP-ÖZÄK)

In association with the University Hospital
for Cranio Maxillofacial and Oral Surgery,
the CMF Institute Vienna and the Anatomical
Institute of the Medical University of Vienna.

camlog

Ladies and Gentlemen,

This unique two day course is designed for surgically active participants who like to enhance their skills in the gentle management and handling of soft tissues for optimal clinical, esthetical and functional outcome.

The first day will be composed of theoretical and clinical information and presentation by the two very experienced experts, Dr. Axel Kirsch and Prof. Rolf Ewers.

The second day will be the practical part of the course at the Anatomical Institute of the Medical University of Vienna. Each participant has the possibility to exercise the procedures and techniques presented during day one. Excellent demonstration via a Zeiss stereomicroscope offers best pictures and visibility of each procedure step by step.

A typical Viennese "Heurigen" evening will give you a taste of the real Vienna. The "Heurigen" restaurant is a unique tavern only to be found in Austria in general and particular in the Vienna area, where wine is produced. The term "Heuriger" is a very special Austrian expression that

no English translation exists for it. The wine tavern and restaurants offer a traditional and cozy atmosphere ("Gemütlichkeit") and serve originally the most recent year's wine and a special selection of food. You will certainly enjoy a special evening with other participants and the experts.

**THE LEVEL OF THIS COURSE
IS ADVANCED TO COMPLEX FOR EXPERTS.**

PROGRAM

Friday, October 7, 2011

CMF Institute

9am - 6pm

Theory & Clinical Presentations

- 1 Anatomical and patho-physiological prerequisites
- 2 Clinical radiographical diagnostics
- 3 Soft tissue management concepts to optimize implant sites

Indications

Differential indications

Contra indications

- 3.1 Socket ridge preservation
- 3.2 Conversion of biotype/thickening of soft tissues treatment using CTG (connective tissue graft), FTG (free gingival graft) or combined graft
- 3.3 Site preparation prior to pedicle CTG and extensive augmentation procedures
- 3.4 Apical repositioning flap
- 3.5 Roll flap
- 3.6 Papillar reconstruction procedures
- 3.7 Gingivaplastic
- 3.8 Trouble shooting "what to do if things turn sour?"
- 3.9 Q & A regarding all issues

Evening event

Dinner at a "Heurigen Tavern"

Saturday, October 8, 2011

Anatomical Institute

8.30am - 5pm

Demonstration & practical exercises

Ridge preservation to optimize possible implant sites/CTG connective tissue graft

FGG free gingival graft

Combined FGG & CTG

Conversion of biotype/thickening of soft tissues

pedicle CTG/Roll flap

Apical repositioning flap

Gingivaplastic

Closing statements, Group photo

Certification ceremony

INFORMATION

Course Venues:

CMF Institute Vienna
CAMLOG Competence Center
Schumanngasse 15, A-1180 Wien

Anatomical Institute
of the Medical University of Vienna
Währingerstrasse 13, A-1090 Wien

Language: English

Course Fee:

€ 1300.00 including course materials,
coffee breaks, lunches and evening event

Number of Participants:

max. 20

CE Credit:

17 points validated by Österreichische
Zahnärztekammer ZFP-ÖZÄK
(Austrian chamber for dentists)

Accommodation:

Hotel Regina ****
Rooseveltplatz 15, A-1090 Vienna
